Outstanding success during World Cup

For the first time in the company history, a PUMA sponsored national team has won the World Cup Final: The Squadra Azzurri from Italy.

PUMA was the dominant kit supplier at the championships, with a strong portfolio of 12 teams and gained brand visibility throughout 56% of all games on the pitch. PUMA was also among the top three brands in terms of player presence on the field, with 18% of all players wearing the innovative v1.06 product line. PUMA now has a great starting position with regards to the Euro 2008 in Switzerland and Austria, where both host federations are sponsored by PUMA. Looking ahead to the World Cup 2010 in South Africa, PUMA will continue as the dominant brand in African Football and will enter the tournament with Italy as the reigning champion and tournament favourite.

Sales and Earnings Development

Global branded sales up 16% reaching almost €1.4 billion in six months

PUMA's branded sales, which include consolidated sales and licensee sales, reached €620 million during Q2, thus marking a 17.1% (currency adjusted 17.2%) increase over last year.

During the first six months, branded sales grew 16.1% (currency adjusted 14.3%) to €1,356 million. Footwear sales increased 13.9% (12.1%) to €770 million, Apparel improved by 19.2% (18.2%) to €469 million and Accessories rose by 18.9% (18.8%) to €118 million.

Consolidated sales rise more than 38% in Q2 and 33% in first six months

In Q2, consolidated sales grew strong 38.2% (currency adjusted 38.7%) to €547 million. First-time consolidations contributed 22% to the growth. In total, Footwear was up 23.7% (24.3%) to €328 million and Apparel improved by a strong 81.2% (81.5%) to €182 million. Accessories realized a growth of 22.8% (25.3%) to €37 million. Team Sport sales contributed the strongest sales growth with over 40%.

Sales in the first six months rose by 33.3% or 31.3% currency adjusted to €1,189 million. Like-for-like, organic growth contributed a strong 12.9% and new consolidations 20.4% to the overall performance. In total, Footwear increased 20.5% (currency adjusted 18.5%) to €727 million, Apparel improved by 71.2% (69.5%) to €383 million and Accessories by 22.2% (22.1%) to €79 million.

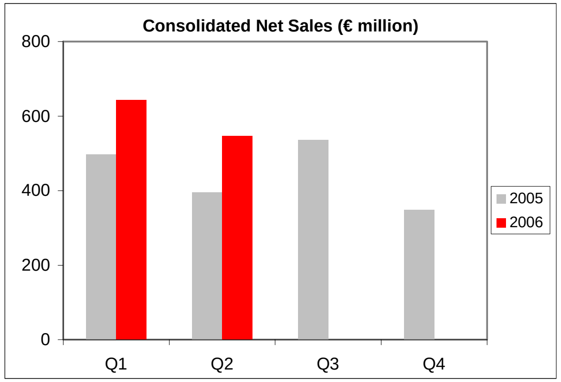
Licensed business

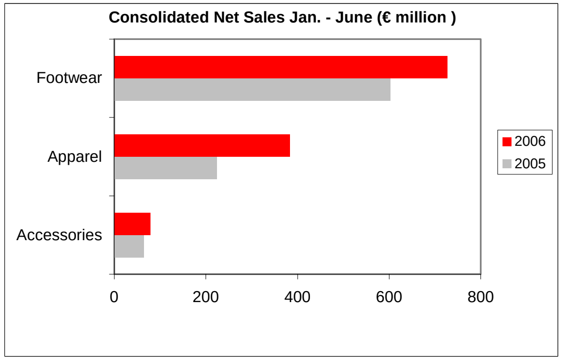
The licensed business increased on a like-for-like basis by 30.9% in Q2, and 18.6% after six months.

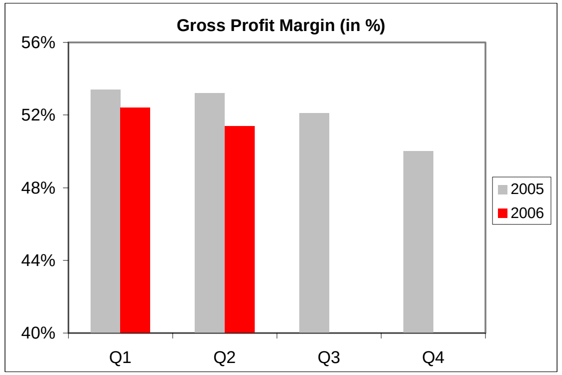
However, due to the take-backs of six license markets as of the beginning of this year, total licensed sales declined by 45.5% to €73 million and by 39.6% to €167 million respectively. Based on the remaining licensed business, royalty and commission income was €7.3 million in Q2 and €15.8 million for the first half.

Gross profit margin remains on a high level

Due to the planned and implemented shift in regional and product mix, the gross profit margin reached 51.4% in Q2 compared to 53.2% last year. First half gross profit margin reached 51.9% versus 53.3% last year. The Footwear margin decreased from 53.6% to 51.8% and Apparel from 53.4% to 51.8% while Accessories increased from 50.3% to 53.5%.







SG&A expenses impacted by strong brand investments
Due to the strong brand investments and the regional expansion total SG&A expenses increased in Q2 by 54.4% to €211 million and by 49,8% to €416 million during the first six months. As a percentage of sales, the cost ratio increased in line with expectations from 34.5% to 38.6% or from 31.1% to 35% respectively.

For the first half, Marketing/Retail expenses increased by 61.7% and accounted for €207 million or 17.4% of sales versus 14.4% last year, in line with expectations. In particular, the marketing campaign for the World Cup and other marketing and retail expenses led to the increase. Product development and design expenses rose by 40.6% to €27 million and, as a percentage of sales, from 2.1% to 2.3%. Other selling, general and administrative expenses were up 39.5% to €182 million, or from 14.6% to 15.3% as a percentage of sales. The increase in other SG&A expenses is related to the extended infrastructure and operations for Phase IV expansion and in line with expectations.

EBIT above expectation
Due to strong brand investments EBIT in Q2 declined by 15.4% to €69 million and by 5.6% to €201 million after six months. This resulted in an EBIT margin of 12.7% and 16.9% respectively. Taking into account the full-year guidance of a high single-digit decline in EBIT, H1 came out better than expected given the high investments.

With an interest result of €2.1 million in Q2 and €4 million for the first half, pre-tax profit decreased by 14.5% to €71 million and by 4.9% to €205 million respectively. During the first six months, tax rate remained at 29% on last years level.

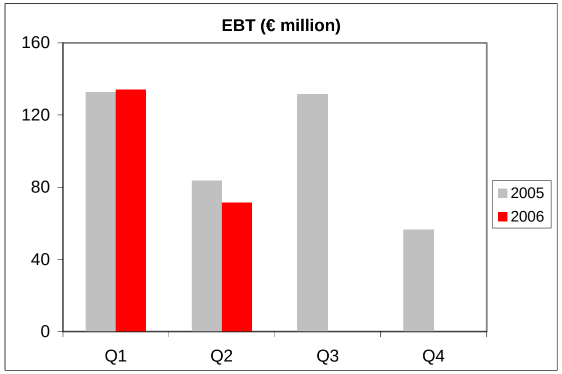
As a result, net earnings were down by 14.9% to €50 million in Q2and by 4.4% to €143 million in the first half. Net margin was calculated at 9.2% (last year 14.9%) for Q2 and at 12% (16.8%) for the first six months.

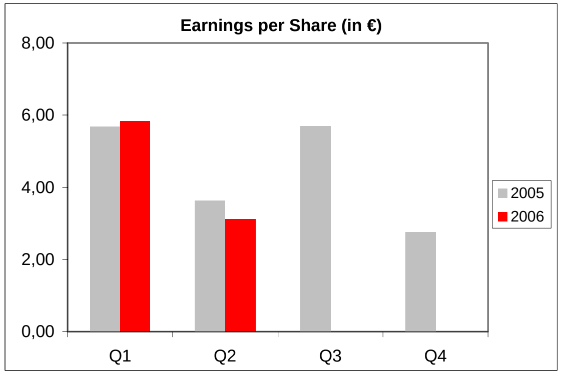
Earnings per share
Earnings per share in Q2 reached €3.12, a decrease of 14.3% versus last year. Year-to-date earnings per share were down by only 4% to €8.95, better than expected. Diluted EPS translates to €3.03 and €8.81 respectively.

Net Assets and Financial Position

Strong equity ratio
Total assets grew by 28.5% to €1,526 million and the equity ratio of 63.1% was almost equal to last year, despite the effect of the regional expansion on total assets.

Working capital
Inventories increased by 37.5%, reaching €333 million and receivables grew by 26.2% to €402 million. Total working capital at the end of June amounted to €447 million compared to €320 million last year. As of June the seasonality as well as the regional expansion affected the working capital. Excluding the regional expansion, inventories increased by 22.6%, receivables by 8.5% and total working capital by 25.1%.





Capex / Cashflow
Capex increased from €38 million to €81 million and in line with expectations. Acquisitions contributed €47 million to the total Capex in H1. Tax payments were €57 million versus €65 million last year. Including the investments for acquisitions and the further working capital need in these countries, free cashflow was €-99 million compared to €-8.2 million last year.

Cash position
Due to the planned investments, total cash decreased from €370 million to €355 million and bank debts grew slightly from €37 million to €48 million. As a consequence, the net cash position decreased from €332 million to €306 million.

Share buyback

PUMA continued its share buy back program in Q2 as expected and added 100,000 shares to the treasury stock, which corresponded to an investment of €30 million. At the end of June, the company held a total of 1,040,000 shares for a total investment of €204 million. This represents 6.1% of the total stock capital.

Regional Development

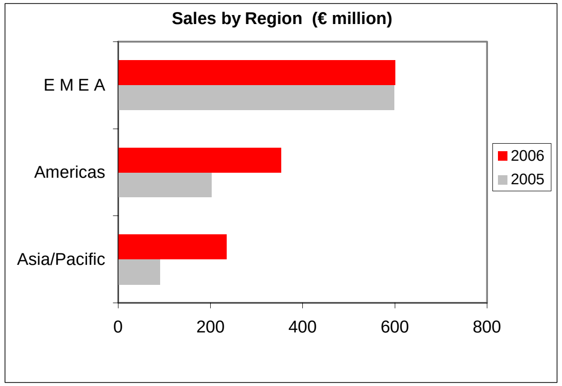
Change in regional mix

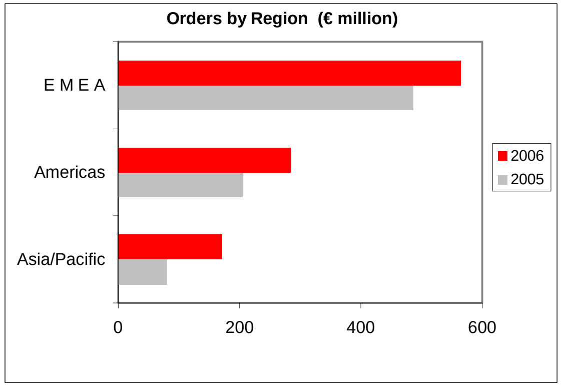
Due to the license take-backs, the regional mix changed significantly as expected resulting in a more balanced business portfolio. In H1, EMEA accounts for 50.5% (last year 67.1%), Americas for 29.7% (22.7%) and Asia/Pacific for 19.8% (10.2%).

Sales in the **EMEA-region** reached €261 million in Q2, an increase of 8.9% versus last year. Year-to-date, sales increased by 0.4% to €600 million. The gross profit margin reached 55% compared to 55.3% last year. Orders on hand end of June were up a strong 16.1%. Total orders in this region accounted for €564 million and all countries reported an improvement versus last reporting dates.

Sales in the **Americas** reached €172 million in Q2 and therefore a growth of 58.3% (currency adjusted 57.6%). First half sales were up 74.5% (65.8%) to €354 million. The gross profit margin decreased by 50 basis points to 47.7%. The order volume was up by 39% to €285 million, or currency adjusted by 44%. The **US** market contributed with a strong top-line growth of 46% in Q2 and 53.7% after six months. Orders for the US were up by almost 20% totalling $252 million at the end of June.

In Q2, the **Asia / Pacific** region increased sales by 140.7% (currency adjusted 144.4%) to €114 million. After six months the sales growth was 158.4% (161.3%) and reached €235 million. The regional expansion in particular organic contributed to the overall performance. The gross profit margin in this region was down by 70 basis points and reached 50.6%. As of June orders on hand were up 111.5% (currency adjusted 117.5%) and totaled €171 million.





Outlook 2006

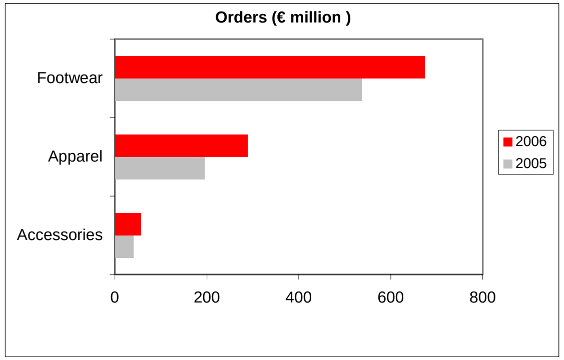
Future orders up 35% currency adjusted
Total orders on hand as of June increased by 32.2% (currency adjusted 34.5%) and totaled €1,020 million. All regions reported favorable double-digit growth rates. The orders are mainly for delivery in the second half of 2006.

By segment, Footwear orders were up by 25.6% (currency adjusted 28%) to €674 million. Apparel orders increased to €289 million, an increase of 48.4% (50.1%) and Accessories totaled €57 million with a growth of 41.3% (45.8%).

Management confirms full-year guidance
Due to the strong first six months and the future order growth development management reaffirms the full-year guidance, which was already upgraded earlier this year with a sales growth of up to 35%.

Due to the regional and product mix, the full-year gross profit margin should range between 50% and 51%. Selling, general and administrative expenses are expected to rise to or slightly above 35% of sales.

Taking into account the better than expected performance in H1, management is optimistic that operating profit (EBIT) will reach the earlier given guidance of around €360 million or 15% on sales. The tax rate should stay on last year's level around 29%. As a result, net earnings should decline by a high single-digit versus last year and should significantly exceed the original expectations for 2006 communicated with the Phase IV strategy mid last year.



Jochen Zeitz, CEO: "By supplying the World Champion Italian National Team along with our overall strong brand visibility at the Football World Cup, as well as further outstanding performances in new product categories like Golf, PUMA was able to strengthen its position as one of the most desirable sportlifestyle brand. Combined with half year results that exceeded our expectations, it has been a very successful first six months of 2006 and of Phase IV of our long-term business development plan."

Notes to the Interim Report

ACCOUNTING STANDARDS

The unaudited interim report of PUMA AG and its subsidiaries (which together form the PUMA group) for the first quarter 2006 was prepared according to the International Financial Reporting Standards (IFRS) passed by the International Accounting Standards Board (IASB) and took over by EU. The interim report is up to standard to IAS 34 “Interim Financial Reporting”.

The accounting standards applied in the preparation of this interim report correspond to all committing standards and interpretations of IASB which are valid starting from January 1st, 2006.

This interim report is partly based on assumptions and estimates which have an effect on the amounts and on the breakdown of the reported assets and liabilities as well as of the revenues and expenses. The actual values may, in some exceptional cases, differ from these assumptions and estimates at a later date. The corresponding changes if and when they occur will be reflected in the results as soon as the findings are revised.

CONSOLIDATED GROUP

In the context of its long-term corporate development plan (Phase IV), PUMA has acquired the majority share or 100% respectively in the following companies as of January 1st, 2006: PUMA Apparel Japan K.K., Japan, PUMA Taiwan Sports Ltd., Taiwan, Liberty China Holding Ltd., British Virgin Islands, Liberty Sports Marketing Ltd., Hong Kong, Liberty Shanghai Ltd., China, Unisol S.A., Argentina and ATA Inc., Canada. In accordance with the agreements concluded with minority shareholders with a view to acquisition after expiry of the term of the agreement, the companies in Japan and Taiwan are to be allocated to the PUMA Group at 100% in economic terms with effect from January 1, 2006. The companies in China/Hong Kong and Argentina are purely joint ventures which are recognized through taking the respective minority interest into account.

Due to the change in the consolidated group, assets and liabilities were affected at the date of initial consolidation as follows:

	€ million
Inventory	41.3
Receivables	14.7
Goodwill	67.7
Other assets	29.2
Bank liabilities	0.0
Other liabilities	-30.6
Purchase price	**122.3**

The total purchase price is expected to be € 122.3 million whereof € 67.7 million account for goodwill and € 54.6 million for acquired net assets. A total of € 66.5 million was already paid. The remaining amount of € 55.8 million is included in liabilities from acquisitions. Sales in the reporting period was affected with € 182.4 million.

SEASONAL VARIANCE

The group’s sales fluctuate with the season. Consequently, the sales and resulting earnings vary in the course of a year. Normally, sales and earnings reach their peak in the first and third quarter while the second, and particularly the fourth quarter may be characterized by lower levels.
